Key Principles

1 Solution, Limitless Possibilities

Technological innovation and long-standing experience result in a smart expandable modular system that combines new generation **intense pulsed light, laser and RF** for a broad range of aesthetic and dermatological applications, all enclosed in a single system.

Why Choosing LUXEA PLUS:

All-In-One Solution

A single, modular workstation that expands with your clinic: 8 different technologies, 12 handpieces, more than 18000 available protocols, limitless possibilities.

Remote Diagnostics

For immediate remote diagnostics and quick software updates.

Upgradable System

A small initial investment that can be progressively expanded, to respond quickly and effectively to new patient needs.

THE SCIENCE BEHIND

Small with Big Performance

This **complete, modular, upgradable** and continuously expandable system comprises **12 between FT pulsed light, RF and laser handpieces** available - all with a Plug & Play connection - for a wide range of skin and beauty treatments.

5 Pulsed Light Handpieces

Lilac, Viridis, Lazur, Ruber, Genus AX: latest-generation IPL handpieces optimising cooling, ergonomic, efficiency and comfort for practitioner and patients.

1 RF Handpiece with 5 Tips

Setis : It comes with 5 different interchangeable tips (for every patient's needs) and a built-in temperature sensor.

6 Laser Handpieces

Sparks, Flash, Insight, Prisma, Vivid, Erise: all miniaturised laser sources ensure high-performing treatments in a wide range of applications. All are easy to handle and light in weight.

ERGONOMY FIRST!

LUXEA PLUS

is the ideal solution
for clinics seeking to grow
by gradually expanding
their patient
offering.

A Quick Look

MULTIFUNCTIONAL APPROACH

Telediagnosis system for REMOTE TECHNICAL CHECK

CUSTOMISABLE SYSTEM

UPGRADEABLE MODULES

Usually to effectively treat a blemish you need multiple laser sources, with greater commitment of space and costs: for this reason we have created Luxea Plus, that represents an **excellent compromise** between **efficiency** and **costs**.

The Floor to Practitioners

“ I can only speak enthusiastically about Luxea, it's a reliable system and the feature that definitely makes it different from all the others is its versatility: the vast choice of sources and handpieces allows to assure numerous treatment solutions to our patients.

Also, for a young dermatologist to have the possibility to start with some of the typically most used sources and then subsequently be able to integrate them with others, is something that I think only Luxea Plus can offer.

During the last year I have treated several cases and numerous pathologies with excellent results. Nowadays patients have more than one request and with Luxea Plus we are able to take care of our patients at 360 ° and the advantage is that we can do it all with the same machine!

Dr. Diletta Bonciani, MD, Dermatologist
Florence, Italy

“ Luxea Plus is the ideal solution for clinics seeking to grow by gradually expanding their patient offering. An initial investment in latest-generation pulsed light handpieces, for example, provides a cutting-edge device capable of ensuring effective hair removal, treatment of vascular and pigmented skin lesions, and photorejuvenation. At any time, you can then add increasingly specialised handpieces, such as those targeting acne or wrinkles, or extend the range of treatments offered with new handpieces for removing tattoos or treating cellulite. Moreover, the combination of multiple technologies on a single patient often achieves the best results, to the satisfaction of everyone involved.

**Prof. Paolo Bonan, MD, Head of Laser Dermatology
& Plastic Surgery Unit - Villa Donatello Clinic**
Florence, Italy

THE PERFECT MATCH

LUXEA PLUS Strength

- **All-in-one** solution
- **Expandable modular** system
- **Easy** to use, short learning curve
- **Rapid return on investment** (ROI) and total patient satisfaction to increase your business
- **3 different technologies:** pulsed light, laser and RF
